

Middle East & India

**A professional Agriculture Consultancy firm for those
looking in to the future of nature**

FARM TECH CONSULTANCY

A company registered under Section 68(1) of the Indian Partnership Act, , with No: 590/2019 and the office at Villa:17, Dream Valley, Chevarambalam.P.O, Kozhikode, Kerala, India is doing consultancy services in sustainable farming, hydroponic greenhouse, aquaponics, also dealing with agriculture inputs, equipment and related activities. The company is represented by Managing Partner Mr. Muraleemanohar. M, MSc(Horticulture) with a wide range of experience in GCC and in India in commercial farming sector from the year 2000 onwards working with highly sophisticated commercial farms in open field, shade houses and hydroponic greenhouses, aquaponics farms.

FARM TECH CONSULTANCY provides a comprehensive approach to urban and rural agriculture project development. We have helped a few organizations determine the feasibility of their ideas, validate their business strategies, helped in finding talent for their projects, and manage operational challenges.

Through a personalized commitment to each project, we expand our clients capacity to reach their goals. Our job is to jumpstart your knowledge of urban and rural agriculture, help you navigate barriers to entry, make industry connections, and mitigate risk. Our consulting services are backed by several years of data and the experience of Mr. Muraleemanohar as grower and sustainable manager in the leading farming companies in GCC.
